PACKAGING STRATEGIES

Cartoner/Case Sealer Runs Chipboard Cartons and RSC Cases on One Machine

July 25, 2019

The new and improved CS-TOP vertical carton/case top sealer by [AFA Systems](#) can run chipboard cartons and RSC cases on the same machine. The system also has the option to run both glue and tape closures. This unique offering gives the end user the ultimate flexibility when responding to market demands. The CS-TOP is robust to handle 24/7 continuous operation. The system can run at high-speeds for both cartons and cases.

The unit features an Allen Bradley PLC unit for improved fault diagnostics, set up, and changeover. Also, the top sealer uses servo motors on all major actuated components. The CS-TOP has the option of fully automatic changeover through the use of AB Servo Motors. Improve your line efficiency with the robust and efficient CS-TOP.
